

Distinguished Speaker Series

Caetano Reis e Sousa

Francis Crick Institute

Caetano Reis e Sousa obtained his BSc in Biology from Imperial College London in 1989 and DPhil in Immunology from the University of Oxford in 1992, followed by postdoctoral training with Ron Germain at the NIH. In 1998, he joined the Imperial Cancer Research Fund, later Cancer Research UK London Research Institute, where he established and led the Immunobiology Laboratory. Since 2015, his laboratory has been part of the Francis Crick Institute, where he is a Principal Group Leader, Associate Research Director, and Head of the Immunobiology Laboratory. He also holds visiting or honorary professorships at Imperial College London, King's College London, and University College London.

His contributions to immunology have been widely recognised. He has been listed as a Highly Cited Researcher since 2014 and has received numerous awards, including the Liliane Bettencourt Prize for Life Sciences, the Louis-Jeantet Prize for Medicine, and the Bial Award in Biomedicine. He is a Fellow of the Royal Society, the Academy of Medical Sciences, and the Royal Society of Biology, and a member of EMBO. He is also co-founder of Adendra Therapeutics and was appointed an Officer of the Order of Sant'Iago da Espada by the Portuguese government.
